**Hackers Never Stop.
Neither Do We.**

Subtitle

**A global leader in information security
protecting enterprises, governments, and
critical infrastructure worldwide.**

Short Description

Texial is a global leader in advanced cybersecurity and digital forensics, dedicated to safeguarding enterprises through cutting-edge threat intelligence and proactive defense strategies. By blending innovative technology with deep domain expertise, the firm empowers organizations to navigate the evolving digital landscape with resilience and precision. They provide end-to-end security solutions that protect critical infrastructure and ensure data integrity in an increasingly interconnected world.

Long Description

Texial is a premier cybersecurity and digital forensics firm that provides comprehensive protection for global enterprises, government agencies, and critical infrastructure. We specialize in proactive threat hunting, incident response, and advanced vulnerability assessments designed to neutralize sophisticated cyber threats before they can disrupt operations.

What sets us apart is our dual-lens approach, integrating deep forensic intelligence with real-world defensive engineering to build truly resilient digital ecosystems. By moving beyond traditional perimeter security, we give clients the visibility and agility to stay ahead of the most complex adversarial tactics.

Our commitment to innovation ensures that while the threat landscape evolves, our partners remain secure, compliant, and ready for the future. Texial also operates a global training division, Texial Academy, having certified over 350,000 professionals worldwide. Follow Texial on LinkedIn, Instagram, and YouTube @texialofficial.

Texial.

BRAND BOOK

Primary logo

The primary logo of the brand is the wordmark set in Goli Bold, with the signature green dot. Always use the logo files provided. The logotype should be black or white.

Logo misuse

- Do not change the proportions
- Do not distort the logo
- Do not use different colors
- Do not recreate using any other typeface
- Do not crop the logo

Logo usage on backgrounds

The full-color logo should only be used on very light or very dark backgrounds. Don't place the logo on top of mid-tones.

Avoid using the full-color logo on top of a photograph, unless it sits on a very light or very dark area of the image.

The logo "Texial." is displayed in a bold, black, sans-serif font on a plain white background.The logo "Texial." is displayed in a bold, white, sans-serif font on a solid black background.The logo "Texial." is displayed in a bold, black, sans-serif font on a light green background.The logo "Texial." is displayed in a bold, black, sans-serif font on a light gray background.

Logomark

The logomark is legible in most sizes and a small version is provided for micro applications.

Logo clear space

The rule of thumb is to use 75% of the logomark height as your guide for clear space around the logo.

95px

Logo minimum size

Our logo should never be hard to read or recognize. To retain legibility, never go below the minimum size shown.

Primary colors

Our primary color palette is a major part of Texial's brand identity. As such, it should be the default choice for any brand-focused or promotional material.

Text should always be set in black or white. The green is reserved for the dot, accents, and key highlights only.

Typography

The primary typeface for the Texial brand is Goli Bold, used exclusively for the logo to maintain a strong and recognizable brand identity.

For headlines and display text, Bebas Neue is used to create a bold, modern, and high-impact visual presence across all communications.

For body text, Inter is used across digital platforms to ensure clarity, readability, and consistency.

Typography should remain consistent across all brand touchpoints. No additional typefaces should be introduced into brand communications without explicit approval.
